

LEICESTER GRAMMAR JUNIOR SCHOOL

CURRICULUM POLICY

This is one of the policies concerned with the curriculum. It should be read with regard to the policies on Sex Education, Assessment, Marking, SEND and Religious Education. It should also be read with regard to the Prevent duty.

This is a whole school policy and as such also applies to the EYFS.

THE AIMS OF THE CURRICULUM POLICY

The curriculum has been designed in order to reflect the aims of the School, as specified in the School's 'mission statement' which is detailed within the School Prospectus:

"The School is a co-educational centre for excellence in academic, musical, sporting and other areas of personal development within a Christian ethos.

The School's aims are:

- To develop the academic potential of the pupil.
- To develop the musical, sporting and other talents of the pupil.
- To develop the moral and spiritual wellbeing of the pupil.
- To develop the individual, in a co-educational school within a Christian ethos."

The curriculum is not just the range of subjects which are offered and the constraints under which they are chosen, but also the way in which they are delivered. It includes any other factors which have a bearing on the academic and personal development of the pupil.

It should be stressed that academic and personal education are not separate, but that both are essential aspects of our teaching. While the curriculum is designed to fulfil the academic potential of each child, it is always remembered that the overall individual personal development of each pupil is paramount.

As a school we support and promote the British Values of democracy, the rule of law, individual liberty, and mutual respect and tolerance for those of different faiths and beliefs. This is in line with the Prevent Duty (2015).

THE OBJECTIVES OF THE CURRICULUM POLICY

LGJS aims to encourage both academic breadth and balance, and to produce pupils who embody and benefit from this guiding principle.

Breadth is achieved by offering a wide range of subjects across several faculties. This allows a range of learning experiences, knowledge, concepts, skills and attitudes. Pupils are exposed to subjects covering the aesthetic, creative, human, social, linguistic and literary, mathematical and moral, physical, scientific, spiritual and technological. At each stage, the curriculum is planned as a whole, so that each subject can contribute to pupils' overall progress and achievement rather than appear discrete and unconnected.

Balance is achieved by giving each area appropriate attention within the curriculum as a whole.

THE NATIONAL CURRICULUM

Although regard is paid to the content of the National Curriculum other subjects are included to broaden and deepen the curriculum available to each pupil.

EVALUATION

It is recognised that the true value of the curriculum is difficult to establish. However, CEM results (ASPECTS/PIPS/inCAS), GL Assessment Standardised Scores, NfER Standardised Scores and pass rates at Entrance Examinations are a convenient and usually very satisfactory way of gauging the success of the curriculum policy. The School supplements this by carefully considering all feedback from pupils and parents.

HOW THE CURRICULUM IS DELIVERED

Responsibility

The Headteacher controls overall policy.

The Deputy Heads and the Curriculum Managers (FS, KS1 &KS2) are responsible for the detail and delivery of the curriculum. They provide a point of contact for staff and parents on curriculum matters.

Setting

With the exception of Mathematics at KS2, it is considered that setting is not appropriate in most curriculum areas for the pupils at Leicester Grammar Junior School. Any differentiation that is required occurs within the teaching group.

Concern about academic progress

Any concern over the academic progress of a pupil is followed up in the first instance by the class teacher who will collect information, and then ensure it is referred on, if necessary, to the

Head who will make contact with parents when appropriate. Concerns should be raised at the earliest opportunity.

The aim is for staff to work with parents and pupils in order to give each child the greatest possible opportunity for academic and personal success.

Assessments (both summative and formative) and teacher feedback are used to monitor pupil progress and to provide evidence for feedback in regular written reports and parents' evenings.

All members of staff are encouraged to use the full range of rewards available to them to motivate and encourage pupils in their work (see Policy and Procedures on Behaviour Rewards and Sanctions). The Head may see pupils at any time to give praise or to discuss work which is giving cause for concern. This is done to encourage staff and pupils to work together and generate an attitude of problem- solving rather than to condemn.

LEARNING SUPPORT

The School has a separate Special Educational Needs and Disability Policy.

The school has a Head of Learning Support who is responsible for the co-ordination and delivery of the SEND policy at both LGS and LGJS. Please read the SEND policy for details of how the matter of SEND is addressed.

CURRICULUM THROUGH THE SCHOOL

The curriculum at Leicester Grammar Junior School is based on the ethos of the National Curriculum (2014) with the addition of the elements of a traditional primary school education.

As stated in the original aims of the School, the curriculum is designed to provide breadth and balance. The curriculum promotes the Social, Moral, Spiritual and Cultural development of pupils and supports the British Values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs. Please read the SMSC policy for details.

Subjects in Foundation Stage

The curriculum is based on the EYFS Framework of the seven areas of learning:

- Communication and Language
- Physical Development
- Personal Social and Emotional Development
- Literacy
- Mathematics
- Understanding the World
- Expressive Arts and Design

French is also taught to children in Reception (FS2).

All children in Kinders and Reception (FS1 and FS2) attend Forest School as part of their curriculum.

Subjects in KS1

The curriculum is based on the National Curriculum (2014) and covers English, Maths, Science, Geography, History, RE, PSHEE, Music, Art/DT French, PE/Games, Computing and Forest School. The Cornerstones Curriculum materials are used to ensure that these subjects are taught in a creative way whilst ensuring complete coverage.

Subjects in KS2

The curriculum is based on the National Curriculum and covers English, Maths, Science, Geography, History, RE, PSHEE, Music, Art/DT French, PE/Games, and Computing.

SUBJECT POLICIES

Each subject has its own specific policy which contains specific detail and schemes of work for that subject area.

The following highlight the way in which the curriculum may differ from that in other primary schools.

Religious Education

RE is studied by all pupils.

Modern Foreign Languages

Pupils in Reception (FS2) are introduced to French.

From then on all pupils within LGJS are taught French as part of the curriculum.

Creative and Technical Subjects

The aim is to give all pupils exposure to as many aspects of these subjects as possible. Pupils receive lessons in Art, Design, Cooking, Drama and Music. Drama is taught within the English curriculum. There are many opportunities for all pupils throughout the school to participate in dramatic productions of many varieties.

Science

From Year 3, Science is taught by a Science specialist, in a fully equipped science laboratory.

Personal and social & health development (PSHE)

A structured programme of PSHE is offered to all pupils. This will include more specific health and sex education (in Year 5 and 6) and study skills. Occasionally, a session is arranged which may occupy a morning or afternoon.

Computing and ICT

All pupils receive discrete instruction in computing skills. Pupils from Year 2 onwards also follow a touch typing programme. ICT provision is integrated into subject schemes of work, as appropriate, and delivered through the various subjects in co-ordination with the ICT co-ordinator. The banks of i-pad tablets are also used, as appropriate, throughout LGJS to enhance the pupil's learning. Supervised access to the Internet is available for all pupils. Careful instruction is given to the pupils about e-safety.

Forest School

Forest School forms part of the curriculum for all pupils from Kinders through to Year 2. It is an important aspect of our learning which develops the pupils' creativity and awareness of the environment.

Games & P.E.

Games & PE are compulsory for pupils. A structured programme is offered for all. A few pupils may be excused because of long term illness or physical difficulties but every effort is made to provide alternative activities.

TRIPS AND VISITS

LGJS also runs an extensive range of trips linked to the curriculum, both domestic and foreign, residential and non-residential. One of the chief considerations when approving all trips is their worth to the pupils' development.

Notable amongst these are the Year 5 trip to Boughton Woods which reinforces pupils' experiences at Forest School, and the Year 6 trip to France which enables the pupils to make use of the language skills they have been developing throughout their time at LGJS. Trips play an integral part in the social, moral, spiritual and cultural development of the child, and it is expected that all children attend these trips and visits.

THE SCHOOL LIBRARY

"The role of the school library is to be at the centre of the curriculum" (DfE).

It is the School's aim to follow this DfE recommendation as part of its pastoral objective to encourage independent study and learning throughout the School.

The teaching of library skills forms part of the planned pastoral programme for all forms and this takes place in the library. The library is being developed as a research and resources centre, providing an ICT facility. It is school policy to develop continuously the stock of books and ICT-based resources in both quality and quantity to cater for the needs of all ages.

EXTRA-CURRICULAR ACTIVITIES

It is recognised that clubs and activities play a valuable contribution towards social, personal and academic progress of pupils. Although some activities are academic in nature the interaction between pupils of different age groups benefits both the younger and older pupils in terms of development of social skills and a whole school identity.

It is through such clubs and societies that additional opportunities for social, moral, cultural and personal development can be offered. Some examples are participation in church and Cathedral services, choirs and orchestras, drama groups and house events. It is therefore regarded as essential that as many pupils participate in these activities as possible. This is done through encouragement rather than compulsion.

A range of activities is provided during the lunch break and after school. It is intended that these activities reflect both the academic and the leisure interests of the pupils. Some of the activities are targeted towards a certain age range.

Care is taken not to exclude pupils because of gender, academic ability or economic background.
